

TL - SWR01

MODEL 4

EXTENSION TUBE **AMBI** SLING MOUNT

with 1 1/4" Integral Sling Loop

CAUTION Make sure safety is on and gun is unloaded!

- (1) Allen Wrench
- (2) Synthetic Tape (3 pcs.)
- (3) Spare Screw

Remove the two screws from the adapter with the provided Allen wrench.

Apply 1-2 pieces of Synthetic Tape provided with the mount for optimal fit with mil-spec or commercial-spec extension tube.

Open clamp and close around the receiver extension tube, making sure the Anti-rotational Tab is inserted into the Recess on the tear drop ring in the stock assembly.

Reinstall the two screws and tighten with Allen wrench securely (20in-lbf).

Sling Loop is now ready for ambidextrous sling attachment.
