# RM870 TACTICAL METAL FOREARM

MNT-HGRM87A

## RM870 TACTICAL METAL FOREARM MNT-HGRM87A

Caution: Make sure firearm is not loaded. Remove magazine and examine chamber. Use safe handling procedures at all times.

1. Set up a pleasant working environment and make the shotgun, the mount and necessary tools (a screwdriver and wrenches) available.

2. Remove the Extension Clamp from the gun with a screwdriver.

3. Remove the Magazine Extension and Spring by turning the knurled nut counterclockwise.

7. Slide the mount onto the Fore-end Tube and make sure the rear end of the mount clamps the two arms of the Fore-end Tube Assembly. The mount should not revolve or wobble on the tube.

8. Tighten the Fore-end Tube Nut onto the Fore-end Tube to lock the mount solidly.

9. Put the Barrel Assembly and Magazine Spring back. Tighten the Magazine Extension securely.

4. Pull the front end of the Barrel forward to remove the Barrel Assembly out from the Receiver.

5. Remove the Fore-end Tube Nut by turning it counterclockwise with a screwdriver or a special tool.

6. Pull the original Fore-end out from the Fore-end Tube Assembly.

10. Replace the Extension Clamp to complete the re-assembly of the shotgun.

11. (Optional) Install UTG tactical rails (MNT-P501, 502, 503, 505) on the forearm for flashlight, laser or other accessory applications.
