MODEL 4/15 MID LENGTH QUAD RAILS INSTALLATION GUIDE
MNT-T416MA

Caution: Make sure firearm is not loaded. Remove magazine and examine chamber. Use safe handling procedures at all times.

PULL DOWN DELTA RING

1. Use a handguard removal tool to pull down Delta Ring and remove the handguards.

TOP COVER

BOTTOM COVER

2. Separate the metal quad rails into the Top Cover (3 rails) and the Bottom Cover (1 rail). Install the Top Cover onto the barrel by aligning the inner two spinal cords against the central groove area in the barrel nut, and push for a tight fit.

CENTRAL GROOVE AREA

FRONT HANDGUARD CAP

3. Press downward the Top Cover to push down the Delta Ring, and then release toward the Handguard Front Cap. Make sure the 4 integral alignment tabs at the front of the mount are properly positioned to firmly sandwich the front cap (middle 2 small alignment tabs are inside of the front cap-see the green area, and the other 2 large side tabs are outside of the front cap-see the red area).

4. Press downward the Bottom Cover to push down the Delta Ring, and then release toward the Handguard Front Cap. Make sure the 3 integral alignment tabs at the front of the mount are properly positioned to firmly sandwich the front cap (2 small alignment side tabs are inside of the front cap-see the green area, and the middle large tab is outside of the front cap-see the red area).

BOTTOM COVER

ALIGNMENT ASSEMBLY TABS

5. Tighten all 4 screws using the provided Allen wrench to secure the Top and the Bottom Covers. The Quad-Rail system is ready for most versatile accessory applications.

CORRECT INSTALLATION
